**Want to Figure Your New Mortgage Payment at 2 a.m.? Here's How.**

WINSTON-SALEM, N.C. (AUGUST 21, 2008) – A new Web site design introduced from Butler & Burke, LLP, offers a wide range of consumer friendly financial tools, including a mortgage/auto loan calculator and a retirement savings planner. The site, located on the Web at [butlerandburkecpa.com](http://butlerandburkecpa.com), also features information on timely topics, such as updates on recently enacted tax legislation and proposed new legislation.

“We wanted our new Web site to be functional in terms of providing background information about our firm, but we also wanted the site to be a consumer tool that people could go to on a regular basis for helpful financial and tax information,” Scott Smith, a partner at Butler & Burke said. “In addition to financial calculators and relevant news articles, our Web site also has a place for people to sign up to receive monthly email updates from Butler & Burke.”

“The Web site will be refreshed with new content at least on a monthly basis, and our e-newsletter will deliver even more up-to-date information and will expand on the Web contents,” Smith added. “It’s all free whether you’re a current client of Butler & Burke or not. This is the go-to Web site for tax information and consumer financial planning tools.”

The new Butler & Burke Web site also has a library of tax forms, IRS publications, and an interactive calendar of federal and state tax “due dates.”

Butler & Burke is located at 100 Club Oaks Court, Suite A, in Winston-Salem. Founded in 1976, Butler & Burke has professional expertise in financial reporting and assurance services, tax compliance, tax planning, retirement and education planning and business consulting.
